Dear Valued Customer:

Owens & Minor is pleased to present our new 2017 MediChoice® Equipment Catalog.

Featuring a complete selection of over 1,000 high-quality equipment products from suppliers you know and trust, all within the MediChoice brand. MediChoice products are tailored to address specific needs; from medical carts that provide both convenience and security for vital medical supplies to blanket warmers with CuVerro® copper alloy antimicrobial handles, known to kill viruses and bacteria upon contact, aiding in infection control protocols. The MediChoice line also includes protection organizers and dispensers, offering a versatile way to organize PPE, hygiene and bulk items to keep your staff prepared and protected.

Our mission is to continually expand our offering to provide you with a wide range of equipment products and services to meet your needs today – and in the years ahead.

Let MediChoice help you with your expansion, new facility, or renovation projects. Turn to the inside back cover of this catalog for a complete list of Owens & Minor locations, each with a team of representatives eager to put the power of MediChoice to work for you.

We truly appreciate the opportunity to serve your medical equipment needs. Thanks again for making MediChoice your brand of choice.

Sincerely,

Javara Perrilliat
Vice President, Strategic Supply Management

TOGETHER, WE MAKE HEALING HAPPEN.

INITIATIVES

+ Sustainability Owens & Minor

Efficiency in Action

As a leading healthcare logistics company, we are committed to environmentally responsible business practices. It's our core business strategy to aggregate multiple, disparate supply chains into a single, efficient delivery channel. This means we ship with more complete truckloads and ultimately reduce the number of direct, single-vendor delivery trucks required to serve our customers' daily needs.

Our Portland, Oregon distribution center models our commitment. It reuses 90% of packing materials—redistributing used pallets, recycling 15,000 in 2015—and recycles more than 175 tons of cardboard and nearly 10 tons of plastics and paper each year.

Because we manage approximately 7 million square feet of warehouse and office space and a private fleet of 360 delivery vehicles, we have an opportunity to positively impact the environment through sustainability programs that focus on efficiency in fleet management, recycling, and energy consumption reduction.

We are proud that the Owens & Minor fleet was awarded the highest grade for energy efficiency by the EPA's SmartWay Transport Partnership.

+ Supplier Diversity Owens & Minor

A MediChoice Advantage

Owens & Minor has an established commitment to advancing supplier diversity. Within the healthcare industry, we have earned a highly regarded position due to the tangible impact and contributions derived from our relationships with minority-, women-, and veteran-owned business enterprises. Investing in supply chain diversity is a business imperative that benefits our provider customers, the suppliers and the community. We believe a thriving community of diverse suppliers generates healthy competition and innovation, and can optimize the supply chain and drive out cost, which positively impacts shareholder value.

The MediChoice brand has grown as a result of our dedication to providing high-quality products to the point-of-need in the most streamlined, cost-effective way possible. And we do all this with superior service levels. Likewise, our commitment to supplier diversity in our sourcing relationships has grown with it. Currently, products sourced from diverse suppliers account for nearly one-fourth of MediChoice sales. By choosing MediChoice, hospitals realize significant savings while advancing their organization's supplier diversity goals.

Choosing the Right Monitoring System

Find solutions to fit your patients and your workflow, including multiple sizes of sphygmomanometers and ABI systems with standard ankle cuffs for Peripheral Artery Disease diagnostics. Choose units that stay in the exam room or easily make rounds.

Choosing the Best Lighting Solution

You have extensive choices
in two categories

PROCEDURE/EXAM,
with a soothing glow for
patient comfort

**MINOR SURGERY/OUTPATIENT
DIAGNOSTIC,** which is brighter and
whiter to maximize the clinician's field
of vision

FIXTURE STYLE: Meet every need with mounts on walls, rails, ceiling, or tables, plus floor stands.

ADDITIONAL FEATURES TO CONSIDER: In addition to light positioning, mobility and bulb type/life, you can choose the light for your exam room by considering three criteria:

K COLOR TEMPERATURE: Expressed in kelvins (K), color temperatures over 5000 K are cool (bluish white), while lower color temperatures (2700–3000 K) are warm (yellowish white through orange).

LUX: A measure of the luminance (brightness) of a bulb. The higher the number, the brighter the bulb.

COLOR RENDERING INDEX: Also called CRI, this scale of 0-100 is used to measure color accuracy to the human eye when compared to its source. A high number means a very high accuracy.

Choosing the Right Measuring Device

Handrail scales work best for unstable patients. The MediChoice wheelchair scale with ramps makes it easy to get measurements from those who are wheelchair-bound.

CAPACITY LOAD: Find scales for all therapeutic areas. Choices range from pediatric scales with a max of 44 lbs. to bariatric scales handling up to 1,000 lbs.

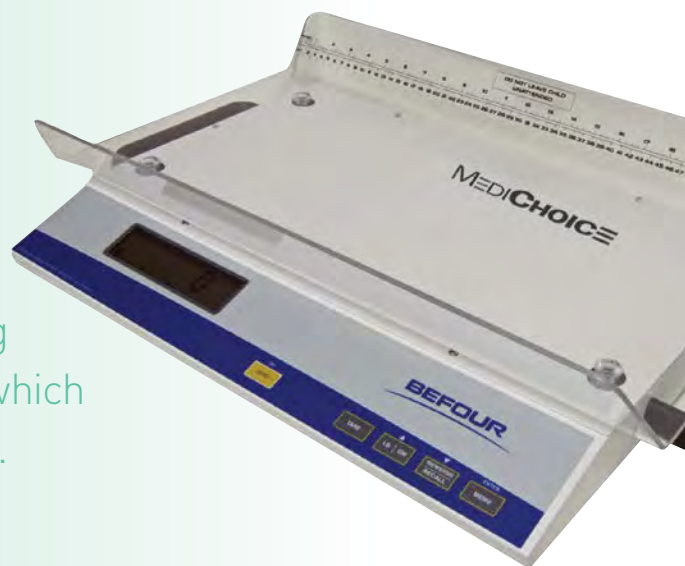

FOOTPRINT AND PORTABILITY: Since floor space is precious, you can select portable scales that slide under a bed or large foldaway ones for wheelchairs. We also offer scales patients can take home for frequent weight monitoring.

CONSOLE FEATURES AND METRICS:

Most MediChoice scale consoles include:

- Auto Clear
- Tare Functionality
- Digital Height Rods
- BMI Functionality
- Auto Shut-off

MEASUREMENT OPTIONS: For complete flexibility, we offer standalone measuring devices, such as the lay-flat baby measuring mat and the mechanic height rod, which you can mount to a vertical surface.

Choosing the Best Exam Table/Chair Solution

BASE MATERIAL: Outfit your chair with a chrome, nylon, aluminum, or stainless steel base.

POSITIONING CONTROL TYPE: Choose hand control, foot control, or both for easy-to-control powered exam tables and chairs.

ONETOUCH WHEELBASE®: This special feature gives you the freedom to move with locking wheels—preventing heavy lifting and scratched floors. The new ease of movement also makes it simple to clean underneath and meet the most stringent infection controls.

ADA COMPLIANT: All powered exam tables and chairs are ADA height compliant. **Note:** *EXAM5200 and all treatment tables are not ADA compliant.*

WEIGHT CAPACITY: Standard treatment tables: 400 lbs; pediatric: 40 lbs; powered exam tables: 500 lbs for standard models and up to 800 lbs for bariatric models.

PROGRAMMABILITY: With the touch of a button, you can move most of our exam tables into clinician-preferred exam positions or use a “Return-to-Home” feature.

STORAGE OPTIONS: Treatment tables offer shelves and cabinet options; exam tables offer 1-4 drawers.

UPHOLSTERY: Choose from 23 vinyl colors for treatment tables and 8 colors for exam tables and chairs.

ADDITIONAL FEATURES: Stirrups, debris pan, paper dispenser, and powered back options are available.

GOOD TO
KNOW

FIRE-RATED AND NON FIRE-RATED UPHOLSTERY OPTIONS ARE AVAILABLE.

Choosing the Best Exam Stool Solution

BASE MATERIAL: Your choices include chrome, nylon, aluminum, and stainless steel.

ADJUSTABLE: You can adjust the height of most exam stools with either a pneumatic lever or manual spin.

SEAT DIMENSIONS: Go for maximum comfort with your choice of diameter and cushion thickness for round or contoured seats.

WEIGHT CAPACITY: Most stools hold between 250 and 400 lbs.

OTHER FEATURES TO CONSIDER: Enhance comfort, functionality with options for legs/casters, foot style and count, color, foot ring, and back rest.

FIRE RATED: Several MediChoice stools give you the choice of standard or fire-rated upholstery.

Choosing the Best Step Stool

BASE MATERIAL: Client favorites for step stool frames are chrome and stainless steel.

HEIGHT AND PLATFORM SIZE: To give you added stability, we offer larger platform options ranging from 6 to 9 inches in height. The stools are also slip-resistant and have feet.

LOAD CAPACITY: Standard chrome step stools: 350 lbs; stainless steel: up to 400 lbs; bariatric models: up to 600 lbs.

HANDRAIL: You have 3-foot handrail options for both chrome and stainless steel options.

STACKABLE: Choose this feature for efficient storage and portability. You can also add a transport cart.

Side Chair Options

MATERIAL: You get the strongest frames (made from heavy-duty tubular steel) and the most comfortable chairs: They have a premium Naugahyde-upholstered back and seat over high-density foam padding.

ARM RESTS: Your preference: with or without.

DESIGN: Prevent scrapes and scuffs with “Wall-Saver” legs that offset the chair from the wall.

BLANKET WARMERS 102-107

MEDICAL CARTS 108-117

MOBILE WORKSTATIONS 118-125

HAMPERS 126-129

INFECTION CONTROL 130-139

Choosing Blanket Warmers

CABINET VOLUME: Use the overall volume as your guide to determine how many blankets you can store, keeping in mind that loft, size, and folds vary drastically per blanket.

FOOTPRINT: Counter top and under-counter warmers help preserve valuable floor space. Where you have room for higher volume models, we offer an array of uprights. Check the shelf count for added airflow and number of blankets that can be warmed at once.

SAFETY: All warmers are UL-approved and meet AORN and ECRI guidelines for patient and facility safety.

EFFICIENT: Our solid stainless steel and glass front panel models are both energy efficient with rubber seals.

TEMPERATURE RANGE: All MediChoice models reach 90°F to 140°F, with a recommendation of 120°F.

INFECTION CONTROL: We make infection control easy: All warmers are stainless steel with CuVerro® copper alloy antimicrobial handles, which kills viruses and bacteria on contact.

Choosing the Right Medical Cart

TYPES: Take your pick from a comprehensive set of carts: Anesthesia, Cast, Emergency, Isolation, Monitor, Pediatric, and Phlebotomy.

MATERIAL: Find a match for your budget and durability needs with all-steel or aluminum/plastic versions.

ACCESSORIES: Customize your cart for ultimate convenience: Look for IV poles, drawer count and size, lock and lock type, bumpers, utility hooks, shelving options, cardiac boards, oxygen tank holders, handles, and more.

Choosing the Best Waste Receptacle

Available in enameled or stainless steel, our receptacle options fit everywhere in your continuum of care. Choose step cans with lids and open kick buckets on casters. You can also select receptacles that are OSHA-compliant for blood-borne pathogens.

Choosing the Right Stand

TRAY SIZE: Get the flexibility you need with different size trays to accommodate your instruments. All trays are removable for easier cleaning.

HEIGHT ADJUSTMENT: You can easily adjust the height of most stands with a locking knob or foot pedal.

FRAME MATERIAL: Your options include chrome-plated, stainless steel, or aluminum.

WEIGHTED BASE: Most stands have a non-tip base that makes it easy to slide under a table.

CASTERS: Choose the number of wheels you prefer for ideal stability.

Choosing the Right IV Pole

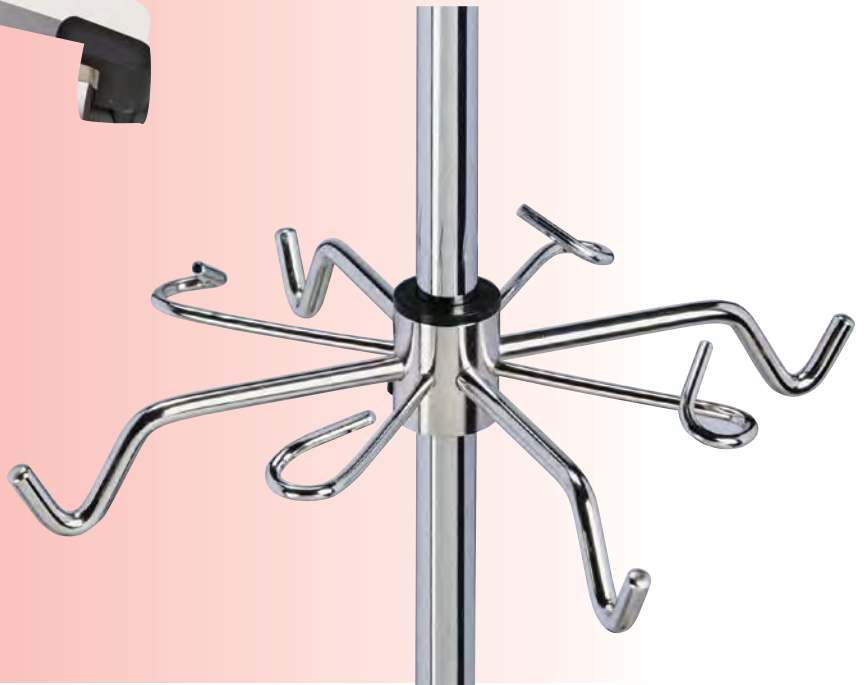

LEG COUNT: Go with your preference: four-, five-, or six-legged options for increasingly stable bases.

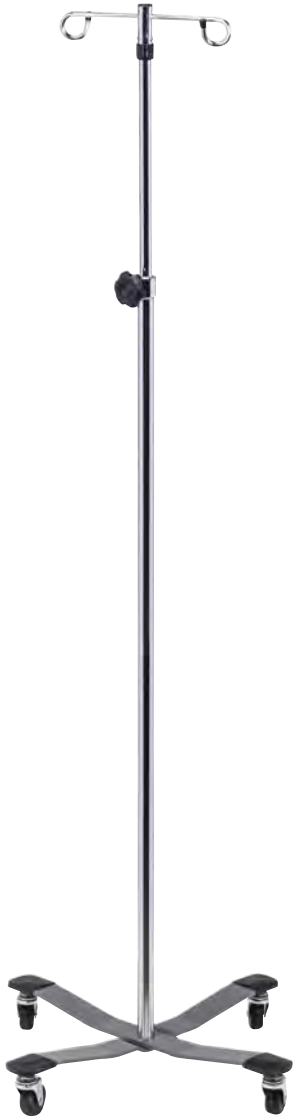

MATERIALS: MediChoice IV poles come in stainless steel and chrome, with bases of plastic, aluminum, or epoxy coated steel. If you select chrome, please note that two options also have a heavy base.

RAM'S HORN: Choose two or four count hooks, all of which are plastic-tipped for safety. Models also offer a detachability feature.

ACCESSORIES: Select from a wide array of baskets, pump stands and frames, extra hooks, stability weights, outlet strips, and other accessories. For any IV pole options that say “Clamp required,” you’ll need to purchase a universal clamp separately.

Choosing the Right OR & Stretcher Replacement Pad

PADS: Stretcher pads come in a variety of thicknesses. OR pads are all two inches thick. You can select a premium pad with a 1/2" gel topper and 1 1/2" foam base, complete with deluxe cover and vinyl bottom.

COVERS: For maximum convenience, all covers are radiolucent, waterproof, stain resistant, antimicrobial, antibacterial, and washable. Standard and deluxe OR and stretcher pads include matching covers. You have three more options for stretcher pads.

OR Pad Covers

Standard: reliable, heavy-duty Naugahyde

Deluxe: 3-way stretch vinyl for added comfort

Additional Stretcher Pad Covers

Comfort: soft 2-way stretch vinyl

Polyurethane: 4-way stretch polyurethane for the most comfortable feel

Polycarbonate: 4-way stretch polycarbonate for ultimate comfort and longest-lasting durability

FIRE RATED: All foam fillers are fire rated and conform to CA Technical Bulletin 117.

Choosing the Right Instrument Table Solution

PLATFORM SIZE: We offer you an enormous range of sizes to keep instruments at your fingertips.

CONSTRUCTION & MATERIAL: Our tables are built to perform under all conditions: They're made of 20 gauge #304 stainless steel; tops and shelves are hemmed and formed for perimeter strength; and edges are smooth and finished for safety. Our large tables (20" and 24" width) have stiffeners laminated and welded to tops for added rigidity.

SHELVES: All tables have a lower shelf for additional storage.

CASTERS: These tables move smooth and easy thanks to 2" ball-bearing swivel casters.

Heat Therapy Pumps and Pads

PUMP: Convenience is the key with this standard heat therapy pump, from the bright, easy-to-read display of real-time temperature to the digital controller that manages a prescribed set-point within 1°F. The pump also has three temperature safety limit guards to prevent overheating and uses ordinary tap water.

HEAT THERAPY PADS: Patient comfort is our priority: Pads are made of soft, thin, lightweight polyurethane for high draping performance and increased malleability; low internal pressures of 3-5 psi reduce point pressure to prevent skin reddening and breakdown; and a pinwheel channel design promotes efficient water flow and temperature dispersion.

HYPO/HYPER-THERMIA BLANKETS: These have all the benefits of heat therapy pads, plus the blanket's white side can be dampened for moist therapy.

GOOD TO

Choosing the Recliner Solution

POWERED VS. MANUAL: Powered exam chairs add an element of ease for patients with restricted mobility. Most models also come in budget-conscious manual options for general use.

RECLINER FOOTPRINT: Find a perfect fit for any room easily with our variety of sizes.

SEATING POSITIONS: Recliners that fit any therapeutic requirement: Many offer three standard Trendelenburg positions (upright, recline, flat) while others have full-range (infinite) positioning.

ARM STYLE: The choice is yours: fixed, drop, or swing arm.

COLORS: Pick from a spectrum of upholstery colors—see the swatches for each type of recliner.

LOAD CAPACITY: Our wide range of maximum capacities comes in handy as patient populations change in different therapeutic areas.

ACCESSORIES: Customize your chairs with a fold-away tray, foot rest, foot release, heat and massage options.

Choosing the Right Bathroom Safety Aid

To meet your patients' mobility needs, we offer an array of commode seats, bath seats, and shower commode chairs.

MATERIALS: Our comfortable commode and bath seats are made of molded plastic with sturdy frames of welded steel, aluminum, or PVC.

LOAD CAPACITY: Capacity ranges from 250 lbs to 600 lbs on bariatric models.

ADJUSTABLE HEIGHT: Give your patients the advantage of adjustability with heights ranging from 14" to over 23".

ARM STYLE: Arm rests add another level of stability. We offer drop arm and removable arm styles for convenience.

BACK SUPPORT: Many of our commode chair models include back support. This support comes off easily so the chair will fit most toilets.

COMM7009	Commode Pail Set, 12-Quart Capacity with Cover and Handle, Gray, Fits Standard Commodes

Wheelchairs & Wheelchair Accessories

You have extensive choices, with chair capacities ranging from 250 to 650 lbs and seat widths from 18 to 30 inches.

FOOTREST & LEGREST ASSEMBLIES: Add comfort with fixed or swing-away footrests or elevating leg rests.

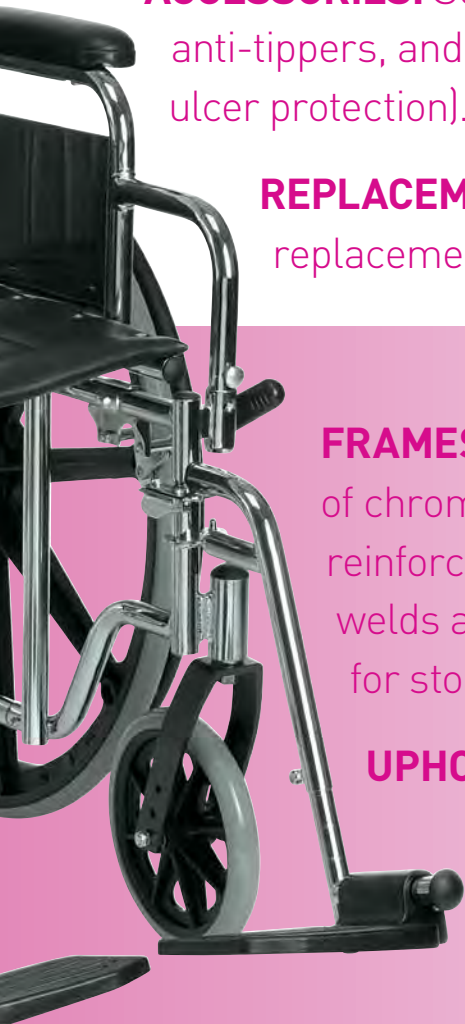

ARMREST ASSEMBLY: Give your patients options with desk-length or full-length armrests at a fixed or adjustable height.

ACCESSORIES: Select oxygen tank and IV pole holders, anti-theft devices, anti-tippers, and seat cushions (either for extra comfort or added pressure-ulcer protection).

REPLACEMENT PARTS: You're completely covered with a full range of replacement parts. *(See the full list on pages 201-203.)*

FRAMES: Standard and heavy-duty wheelchair frames are made of chrome-plated, carbon steel; heavy-duty chairs have added reinforcement; and bariatric chairs have 1" tubing, reinforced welds and gussets, and double cross braces. All chairs easily fold for storage.

UPHOLSTERY: Standard wheelchair upholstery is black vinyl; on heavy duty chairs, it's embossed for added strength. Upholstery on bariatric chairs is constructed from reinforced nylon.

Choosing Canes, Crutches, & Walkers

CANES

WEIGHT CAPACITY: MediChoice canes range in capacity from 240 to 300 lbs.

MATERIALS: Choose wood or aluminum based on your patients' preferences and needs.

MODELS: Offer your patients comfort and stability with standard, offset, or quad options.

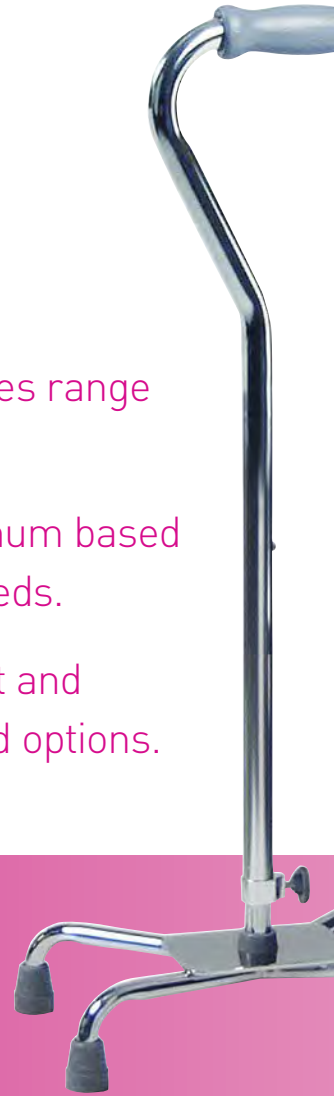

CRUTCHES

WEIGHT CAPACITY: Our standard crutches support up to 300 lbs; our bariatric ones support up to 600 lbs.

MATERIALS: Crafted for maximum stability, our standard crutches are made of aluminum while our bariatric models are comprised of heavy-duty steel.

HEIGHT ADJUSTABILITY: Choose from a variety of sizes for standard crutches: child, youth, adult, and tall. Bariatric crutches are available in adult and tall.

ACCESSORIES: Enhance patient comfort with underarm cushions, hand grips, and tips.

WALKERS

STYLES: You have options for your patients: lightweight rigid frames, single-release folding, and dual-release folding.

WEIGHT CAPACITY: Our standard walkers range from 250 to 400 lbs and our bariatric model has a 600-lb capacity.

HEIGHT ADJUSTABILITY:

All walkers have adjustable legs/ sizes to fit the majority of patients.

WHEELS & ACCESSORIES: Certain walkers come with wheels to maximize mobility. We also offer add-on wheels, along with ski glides, glide caps, and replacement walker tips.

Choosing the Right Turn & Positioning Aid

WEDGE: Your patient gets optimal pressure relief for the hipbone and coccyx from the standard 30° wedge's smooth convoluted foam. Choose 24" or 16" lengths.

WEDGE COVER: This low-shear, wipe-clean cover is ideal: It reduces skin friction, can be disinfected, and has a non-slip bottom.

SLIDER SHEET: Move patients easily with MediChoice's slider sheets. The sturdy nylon material creates a waterproof barrier. The sheets connect with bolsters (hook and loop) for stabilization and feature a "high grip" upper surface for placement of bed pads (sold separately). The transfer sheets are interchangeable for added ease.

GOOD TO
KNOW

THE ABILITY TO ADJUST THE HEIGHT ALLOWS THE TABLE TO BE USED IN MULTIPLE AREAS OF THE PATIENT'S ROOM.

Choosing the Right Replacement Mattress Pads and Overlays

We can help you replace mattresses for standard beds, cots, and cribs/bassinets. If you're looking for a different bed type, please reach out to your local Owens & Minor representative.

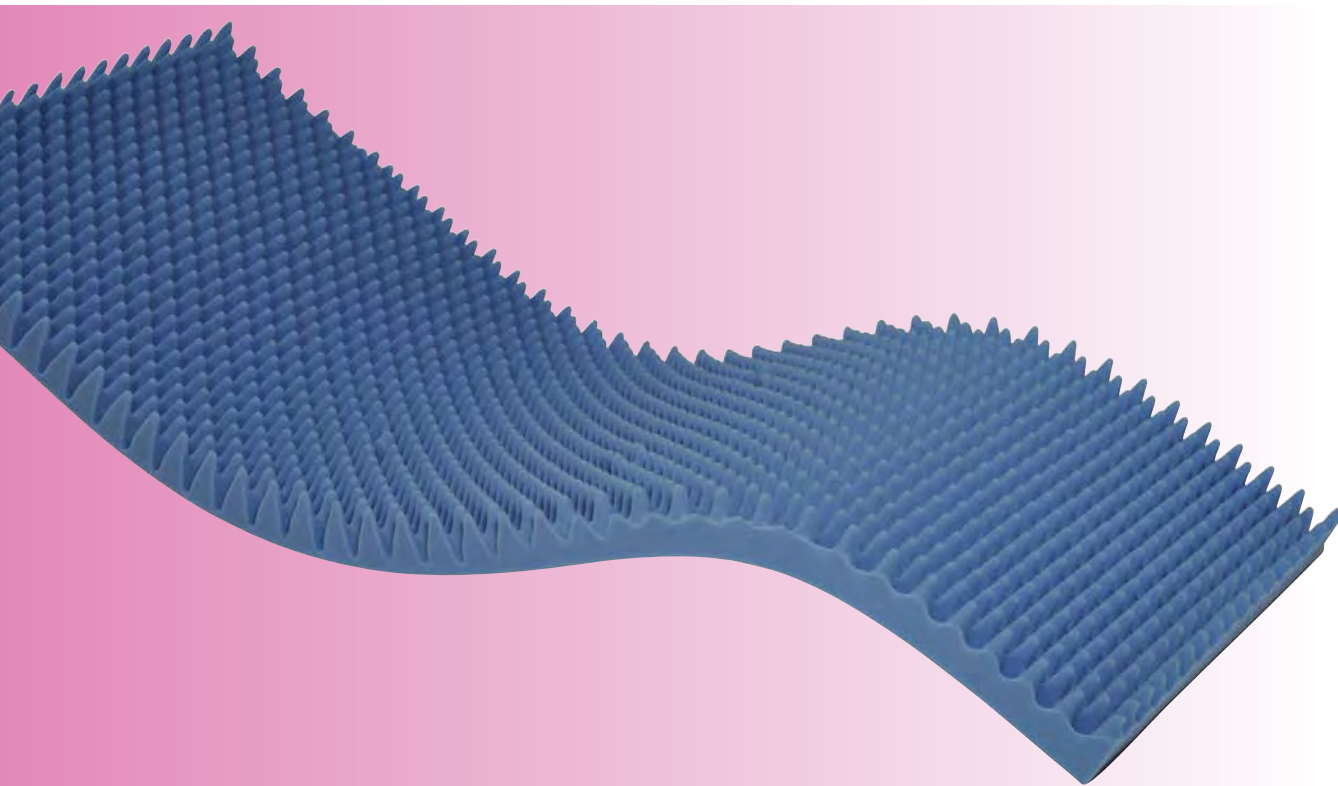

SIZES: We offer a variety of sizes to fit your facility.

FEATURES: Your myriad of choices include toppers and covers offered in different colors.

OVERLAYS: When you need to pay extra attention to skin care and pressure relief, choose from our overlay options:

Synthetic Overlay: Absorbs and transfers moisture to reduce skin breakdown; aids air circulation and weight distribution

Pressure Relieving Foam Overlay: Distributes bodyweight evenly while egg crate foam promotes air circulation for added comfort

STORAGE

MEDICAL STORAGE CARTS..... 230-241

UTILITY CARTS & TABLES 242-251

Choosing the Right Storage Cart

We offer the most popular styles of column and catheter carts.

DURABILITY: With base frames constructed from steel, every option is designed for long-lasting durability.

COLUMNS: Single, double, and triple column cart options fit various usage and space requirements.

LOCKING MECHANISM: Choose a key or electronic lock function based on your security preferences.

DOOR STYLE: We offer both a roll-up tambour-style door and a glass panel door.

ACCESSORIES: Stocking your carts is easy and orderly with our vast collection of baskets, shelves, dividers, and trays.

Choosing the Right Utility Cart or Table

PLATFORM SIZE: You'll find the right size and capacity for every job.

MATERIAL: You're covered at every level: stainless steel for the heaviest use and strictest sanitation requirements, aluminum for moderate duty, or plastic for everyday duty use.

SHELVES: Choose between two or three shelves based on your ideal capacity. Lips and guide rails are available on certain models.

CASTERS: Select the caster sizes that match your usage. Certain models include locking casters.

DRAWERS: Keep your cart organized with an optional drawer, available on certain models.

COVERS: Protect your carts and supplies with our durable covers designed for every size.

About MediChoice®

MediChoice is Owens & Minor's brand of medical-surgical products and durable medical equipment that is expanding to meet the changing needs of healthcare. The MediChoice product portfolio reflects Owens & Minor's longstanding commitment to building strong and diverse supply chain relationships with leading manufacturer partners. Products we source from women-, minority-, and veteran-owned businesses make up over one-third of the MediChoice product line.

By offering a single brand for thousands of regularly purchased items, MediChoice can increase efficiency and support product standardization initiatives. With MediChoice, the savings can be immediate. Our competitively priced products save hospitals an average of 10 percent on the most regularly purchased supplies. With near-perfect fill rates, MediChoice customers get premium service on common items while controlling their supply spend.

Let MediChoice help you meet your patient-care needs, and solve your budget concerns.

Contact Information

For more information on these or other MediChoice products, contact your local Owens & Minor representative or visit our website at medichoice.com.

About Owens & Minor

OWENS & MINOR, INC (NYSE: OMI) is a global healthcare services company dedicated to *Connecting the World of Medical Products to the Point of CareSM* by providing vital supply chain services to healthcare providers and manufacturers of healthcare products. Owens & Minor provides logistics services across the spectrum of medical products from disposable medical supplies to devices and implants. With logistics platforms strategically located in the United States and Europe, Owens & Minor serves markets where three quarters of global healthcare spending occurs. Owens & Minor's customers span the healthcare market from independent hospitals to large integrated healthcare networks, as well as group purchasing organizations, healthcare products manufacturers, and the federal government. A FORTUNE 300 company, Owens & Minor is headquartered in Richmond, Virginia, and has annualized revenues exceeding \$9 billion. For more information about Owens & Minor, visit owens-minor.com, follow [@Owens_Minor](https://twitter.com/Owens_Minor) on Twitter, and connect on LinkedIn at www.linkedin.com/company/owens-&-minor.
